

Remarks

Independent claims 1, 16, 31, 50, and 52 are currently amended to include the following limitations:

the database query related to information about a telephone number,
the database query sent using the telephone number,
processing the translated database query by a line information database, and
the response used to process a call related to the telephone number.

Support for such limitations can be found at least in paragraph [0033] of the present patent application.

Reiman does not teach or suggest each of these limitations. As such, Applicant believes Independent claims 1, 16, 31, 50, and 52, and the claims that depend from them, are in condition for allowance and respectfully request they be passed to allowance.

If the Examiner has any other matters which pertain to this Application, the Examiner is encouraged to contact the undersigned to resolve these matters by Examiner's Amendment where possible.

Respectfully Submitted,
